

## Skyline Parking – Website Poll about 'CO2 emissions'

The question was

**'How much CO2 can you save annually by installing a Skyline Car Park (160 cars) instead of a conventional parking system?'**

The correct answer is **18 tons of CO2** per year!

Here you find some ***further information*** about this topic:

- The following site provides you with information on European regulations , cars and their emissions:  
[https://portal.health.fgov.be/portal/page?\\_pageid=56,3118390&\\_dad=portal&\\_schema=PORTAL](https://portal.health.fgov.be/portal/page?_pageid=56,3118390&_dad=portal&_schema=PORTAL)
- Here you can check emissions per car type  
[http://www.ademe.fr/auto-diag/transports/car\\_lab/carlabelling/saisieformulaire/formulairemarque.asp](http://www.ademe.fr/auto-diag/transports/car_lab/carlabelling/saisieformulaire/formulairemarque.asp)
- And here you find an emission calculator:
